San Gabriel	City of Covina	
Sierra Madre	<b>Subject: San Gabriel Valley Mosquito and Vector Control District Notice of Intent to continue to apply Aquatic Larvicides and Adulticides for Vector Control as part of the District's Integrated Vector Management Program</b>	
South Pasadena	Pursuant to the provisions stated in the National Pollutant Discharge Elimination System (NPDES) Permit (Order No. 2016-0039-DWQ) [General Permit No. CAG990004] adopted on March 1, 2016, by the State Water Resources Control Board, notice is hereby given that the San Gabriel Valley Mosquito and Vector Control District intends to continue to perform larvicide and ultra-low volume (ULV) adulticide applications as part of its Integrated Vector Management Program.	
Temple City	Permit regulations note that any pesticide product can be used that contains approved active ingredients, provided all pesticide label restrictions and instructions are followed. In addition, pesticides which fall under the "minimum risk" category can be used. The minimum risk pesticides have been exempted from FIFRA requirements.	
Walnut	The District's activities are conducted year-round within an approximately 287 square mile area contained within Los Angeles County. The areas that will be actually or potentially impacted by District activities include constructed conveyances, surface waters and other waters of the U.S. in the following: The incorporated cities of Alhambra, Arcadia, Azusa, Baldwin Park, Bradbury, Claremont, Covina, Duarte, El Monte, Glendora, Industry, Irwindale, La Puente, La Verne, Monterey Park, Monrovia, Pasadena, Pomona, Rosemead, San Dimas, San Gabriel, Sierra Madre, South Pasadena, Temple City, West Covina, and Walnut as well as certain unincorporated areas	
West Covina		
County of Los Angeles		

of Los Angeles County.

Treated areas may be under the jurisdiction of Los Angeles County Public Works, Flood Control, and Watershed Management Divisions, Caltrans, the Army Corp of Engineers, and the State Department of Parks and Recreation.

Applications are made in an effort to protect the public's health from vector-borne diseases, are based on key vector and arbovirus surveillance indicators, and are in strict compliance with pesticide label requirements. The following tables list the active ingredients approved for the FIFRA regulated pesticides.

**Active Ingredients for larval mosquito control:**

<i>Bacillus thuringiensis subsp. israelensis (Bti)</i>
<i>Bacillus sphaericus (Bs)</i>
Methropene
Petroleum Distillates
Spinosad
Sumilarv

**Active Ingredients for adult mosquito control:**

<i>Deltamethrin</i>
Prallethrin
Resmethrin
Sumithrin
