In fiscal years 2017/18 and 2018/19, district personnel worked diligently to lower operating expenses while improving overall efficiency of our administrative management, abatement, education and outreach, surveillance, and intergovernmental relations. These efforts, combined with the additional revenues gathered at the completion of the annexation process for the cities of Baldwin Park, South Pasadena, and Pasadena allowed the district to maintain the benefit assessment rate over a period of three fiscal years. During these years, the district also received CDC ELC grant funds that supported additional personnel, surveillance and abatement equipment, and outreach materials. The federal grant allocations are not available for FY 2019/20.

Pasadena

In order to continue the current positive trajectory, lower the threat of native and invasive vectors and vector-borne disease, appropriately fund reserves, and address significant facility infrastructure needs; additional revenues will be necessary in FY 2019/20.

Pomona

San Dimas

An increase to our annual special benefit assessment of \$1.86 (15.53%) per single family equivalent is proposed in this budget. The FY 2019/20 projected total revenue is \$5,363,919 with projected expenditures of \$5,331,379. FY 2018/19 is expected to conclude with a savings of approximately \$373,730. These surplus monies are a result of several full-time employee extended leaves of absence, and are not indicative of savings gained in the course of standard operations. The savings are proposed to be distributed to our underfunded designated reserve funds. This budget also reflects a 2.5% cost of living adjustment for all staff members. The CPI-U for urban wage earners over the past year (February 2018 to February 2019) was 2.5%. Historically low unemployment rates, rising inflation and interest rates, and competitive housing

markets contribute to this moderate rise in the cost of living for the greater Los Angeles area.

The following describes any significant changes to personnel and equipment, capital outlay projects, and transfers to and from District reserves.

Personnel:

- Expansion of the in-class youth education program, Eco Health, with the addition of one full-time Education Specialist position.
- Improve the breadth of the public education and outreach program with the addition of one full-time Outreach Assistant position.
- Support the new out-of-service swimming pool resolution program with a dedicated full-time Virtual Specialist position.
- Continue to improve human resource standards and practices, and financial oversight by creating one Human Resources and Finance Specialist full-time position.

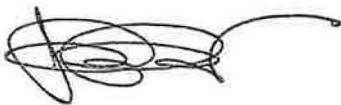

Capital Outlay and Reserves:

- All proposed capital outlay projects are supported by normal annual revenue. No monies have been designated from district reserves to fund their acquisition. The proposed budget allocates the following monies to capital outlay projects:
 - o \$80,000 for server replacement/virtualization and security camera array installation.
 - o \$35,000 for new computers and office equipment for new personnel.
 - o \$100,000 for the purchased and modification of two specialty flood channel inspection and treatment vehicles.
 - o \$38,000 for a dedicated mobile outreach and education vehicle.
 - o \$14,000 for expanded mosquito surveillance materials.

The long overdue addition of personnel and materials supported by the FY 2019/20 budget will significantly aid our ongoing efforts to suppress West Nile virus, slow the expansion of invasive *Aedes* mosquitoes, deeply engage and educate our constituency, and adequately prepare for future threats to public health in the San Gabriel Valley.

I respectfully submit the FY 2019/20 Annual Budget for your review and consideration.

Respectfully,

Jared Dever
District Manager

Department Overview

The San Gabriel Valley Mosquito and Vector Control District was established in 1989 to protect residents from vector-borne diseases, more specifically at that time, to address a local outbreak of a mosquito-borne disease called St. Louis encephalitis.

The District provides mosquito and black fly control services to 26 cities in the San Gabriel Valley, and some unincorporated portions of Los Angeles County; a total area of 259 square miles. The District is governed by a 27-member Board of Trustees, consisting of an appointed representative from each city and unincorporated portions of the County of Los Angeles. The District's services are funded by a benefit assessment levied on each parcel in the District.

The District Manager is appointed by the Board of Trustees and serves at its pleasure. The District Manager is the Chief Officer of the District. The District Manager appoints all department heads and is responsible for overseeing the daily operations of the District. The District Manager is assisted by an Executive Assistant/Board Clerk. The Executive Assistant/Board Clerk is responsible for the preparation of the agenda for the Trustee Board meetings and the maintaining of all official District documents and records.

The District Counsel advises the Board of Trustees on all matters of law in the conduct of District affairs. District Counsel prepares resolutions and contracts for consideration by the Board of Trustees. In addition, the District Counsel reviews all legal documents and represents the District in matters involving litigation.

Department Overview

The Operations Department is responsible for implementing mosquito and vector control prevention strategies in the field. Long-term mosquito prevention is accomplished by incorporating Integrated Vector Management methodologies, which uses a combination of applied field techniques involving physical, chemical, and biological control methods.

The Department is also responsible for the repair and maintenance of the District's facility and fleet. Thirteen Vector Control Specialists, one limited-term vector control technician, one Operations Coordinator, and ten seasonal employees, perform Mosquito prevention and management. One Building and Grounds Maintenance Specialist performs facility maintenance. One Data Analyst supports all aspects of the operation through the extraction and analysis of information. All working under the Operations Manager.

Responsibilities of operational field staff include inspecting neglected pools and ponds, channels, underground storm drains, spreading basins, rivers, flood channels, street gutters and urban mosquito breeding sources. They also work with city officials and other public agencies to improve infrastructure and communicate public health threats.

Budget Highlights

Labor and Salaries

The Department will be adding (1) full-time Vector Control Specialist I position. This full-time position is necessary to cover the increased demand and specialized nature of invasive *Aedes* service requests.

The Department will be updating the Data Analyst job description, to better describe current job duties and the pay scale to better reflect that of similar positions in the public sector.

Specialty Vehicle Purchase

The Department will be purchasing (2) hard tire Jeeps, dedicated for use in open flood channel systems. The Jeeps will be used to inspect and treat these systems on a regular management schedule. The Jeeps will be replacing the two ATVs that we currently use and will eliminate the excessive labor hours required to deploy them while significantly improving safety. We will use those additional hours to manage the flood channels more frequently.

Department Overview

The Scientific Program is responsible for the surveillance program that monitors the abundance of disease-carrying insects and occurrences of vector-borne diseases, as well as all technical aspects of the overall program.

The department is comprised of a Scientific Program Manager, a Senior Vector Ecologist, a Vector Ecologist, two Assistant Vector Ecologists, as well as a Surveillance Technician. The disease surveillance program serves as an early warning system in the detection of mosquito-borne viruses that can infect people and animals. Testing for the presence of viruses and pathogens in mosquitoes and wild birds helps identify disease transmission before human cases occur.

The Vector Ecologists are involved in developing control and monitoring strategies for both native and invasive mosquito species. They are responsible for conducting studies to improve mosquito treatment efficacy and monitoring for pesticide resistance.

The Scientific Program continues to collaborate with local agencies, national agencies and universities on studies surrounding emerging vector and disease issues.

Department Overview

The role of the Communications Department is to promote District services and raise awareness about current and emerging vector-related public health issues. The department designs outreach campaigns and materials that emphasize shared responsibility of vector control with the public. This long-term, sustainable approach uses outreach strategies that engages key target audiences, such as students, residents and elected officials. Regularly assessing programs, using the latest communications technology and being knowledgeable about the diverse population in San Gabriel Valley are vital to ensure a comprehensive outreach program. Campaigns conducted by the Communications Department range from hyper-local targeting to the regional level. Department staff will regularly collaborate with other public health partners and organizations to increase reach and awareness.

Budget Highlights

Personnel - Four Communications Department staff members provide outreach to nearly 2 million residents within the District. The latest addition of an Education Specialist position will help distribute the demand for our services. Our outreach services include community presentations, school presentations, coordinating and staffing event booths, delivering brochures, meeting community and elected officials, and maintaining communications with community partners.

Media Production – The expensive and vast Los Angeles media market requires the District to create videos, GIFs, images and other content that traditionally relied on mass media. Acquiring the appropriate equipment ensures the District is self-sufficient in content creation and distribution. The growth of media production is a reflection of the expanding skill set of the Communications Department.

Event Participation – To maximize reach to nearly two million residents, the District must participate in events that draw in large audiences. Entry and high-impact placement at venues often requires participation fees. By limiting our outreach activities to larger events, we reduce the need to drastically expand staffing.
